

MITCHELL GRAY

✉ meg346@cornell.edu [in](#) MitchellEGray [GitHub](#) MitchellGray100

Education

Cornell University, Ithaca, NY

Bachelor's of Science, Computer Science

Minor, Operations Research Information Engineering

Aug 2020 – May 2024

Deans List: Fall 2022

Relevant Coursework: Distributed Computing · Cloud Computing · Systems Programming · Info Networks · Databases · Operating Systems · Software Testing · AI

Technical Skills

Languages: Java · C++ · Python · SQL · Bash · C

Software & Tools: CosmosDB · Neo4j · Azure Functions · Azure · Google Cloud · AWS · Kafka · Git · Protobuf · CI/CD · Docker · Kubernetes · Tableau · Qlik · pandas · NumPy · JavaFX · PyQT · Mockito · JUnit · Poetry · Maven · CMake

Relevant Work Experience

Gecko Robotics

May 2023 – Aug 2023

Software Engineer Intern | C++, Python, CMake, C, Google Cloud, CI/CD

Pittsburgh, PA

- Worked on Robot Controls team · Revamped Robot & Data Acquisition emulators · Implemented new communications protocol · Wrote code for an asynchronous distributed system · Client/Server TCP networking · Replaced Visual Studio build-system with CMake · Added emulator support for calibratable data · Integrated Github Actions and Poetry

CMU-Software Engineering Institute

May 2022 – May 2023

DevOps Engineer Intern | Python, Bash, Neo4j, Docker, Kubernetes, CI/CD

Pittsburgh, PA

- NDA · Updated and created Gitlab CI pipelines · Developed Python and Bash scripts · Created REST API data visualizations using Qlik · Used ArgoCD to deploy AWS EKS cluster · Improved efficiency of the company by using Python, Neo4j, NeoDash, and the PageRank algorithm to create useful metrics / long-term documentation · Wrote 30+ page whitepaper using LaTeX · Worked in an agile development environment

Cornell University

Aug 2022 – Present

Teaching Assistant / Head Proctor | Java, Python, SQL

Ithaca, NY

- Fall 2023, Databases: Held office hours twice weekly · Answered online Q&A posts · Proctored exams
- Spring 2023, Object Oriented Programming: Nominated for Course Staff Excellence Award · Taught class sections · Helped students with Java assignments and topics in Office Hours & Consulting Hours · Led exam sessions · Graded
- Fall 2022, Intro Physics Lab: Helped students with Python/NumPy data analysis labs and homeworks

Research

ADOPT: Adaptively Optimizing Attribute Orders | [Github](#) | VLDB

Jan 2022 – Present

- Paper Accepted into VLDB 2023 · Created dynamic data visualizations for the ADOPT query engine using Java, D3.js, JavaFX, and GraphStream · Visualized the engine's reinforcement learning algorithm · Worked under Prof. Trummer

Projects

Cornell Meetup | Cloud Computing | Azure, CosmosDB, Python, WebDev | [Github](#) | BOOM Aug 2022 – Dec 2022

- 1 of 32 projects selected for BOOM 2023. My partner and I created a social media web app that allows users to create groups, chat with friends, and see where their friends are when on campus. Accounts details were obfuscated and salted.

DBMS | DB Practicum | Java, SQL, JUnit, Mockito, NIO | [Github](#)

Aug 2022 – Dec 2022

- My team and I created a Database Management System. The DBMS took SQL queries as input and created a logical and physical operator plan. The queries were optimized using indexes, statistics, and V-values to choose the best operators. Queries could be calculated in-memory or externally. Indexes were serialized and deserialized to/from disk.

Egos | OS Practicum | C | [Github](#)

Jan 2022 – May 2022

- My team and I heavily upgraded an operating system. We made a threading and semaphore package, multi level feedback queue to schedule processes, a file write-through and write-back cache using the Clock eviction algorithm, and also implemented the FAT file system.

Organizations

Engineering Entertainment Design Club | Lead Programmer / Secretary | [Club](#)

Aug 2022 – Present

- Created a robot that makes drinks · Wrote Arduino code · Administrative tasks · Filming/Editing for club Youtube

Cornell Tradition Fellowship | Fellow | [Fellowship](#)

Aug 2020 – Present

- Contains < 4% of all students · Keep good grades · Work and volunteer during the school year · Do 100+ hours of each
