

Education

Cornell University, Ithaca, NY

Aug 2020 – May 2024 Deans List: Fall 2022

Bachelor's of Science, Computer Science

Minor, Operations Research Information Engineering

Technical Skills

Languages: Java \cdot C++ \cdot Python \cdot SQL \cdot Bash \cdot C

 $\textbf{Software \& Tools} : \ CosmosDB \cdot Neo4j \cdot Neo4j \cdot NeoDash \cdot Azure \ Functions \cdot Azure \cdot Google \ Cloud \cdot AWS \cdot Kafka \cdot Git \cdot Protobuf \cdot CI/CD \cdot Docker \cdot Kubernetes \cdot Tableau \cdot Qlik \cdot pandas \cdot NumPy \ JavaFX \cdot PyQT \cdot Mockito \cdot JUnit \cdot Poetry \cdot Maven \cdot CMake$

Relevant Work Experience

Gecko Robotics May 2023 – Aug 2023

Software Engineer Intern | C++, Python, CMake, C, Google Cloud, CI/CD

Pittsburgh, PA

• Worked on Robot Controls team \cdot Revamped Robot & Data Acquisition emulators \cdot Implemented new communications protocol \cdot Wrote code for an asynchronous distributed system \cdot Client/Server TCP networking \cdot Replaced Visual Studio build-system with CMake \cdot Added emulator support for calibratable data \cdot Integrated Github Actions and Poetry

CMU-Software Engineering Institute

May 2022 - May 2023

DevOps Engineer Intern | Python, Bash, Neo4j, Docker, Kubernetes, CI/CD

Pittsburgh, PA

• NDA · Updated and created Gitlab CI pipelines · Developed Python and Bash scripts · Created REST API data visualizations using Qlik · Used ArgoCD to deploy AWS EKS cluster · Improved efficiency of the company by using Python, Neo4j, NeoDash, and the PageRank algorithm to create useful metrics / long-term documentation · Wrote 30+ page whitepaper using LaTeX · Worked in an agile development environment

Cornell University Aug 2022 – Present

Teaching Assistant / Head Proctor | Java, Python, SQL

Ithaca, NY

- Fall 2023, Databases: Held office hours twice weekly · Answered online Q&A posts · Proctored exams
- Spring 2023, Object Oriented Programming: Nominated for Course Staff Excellence Award \cdot Taught class sections \cdot Helped students with Java assignments and topics in Office Hours & Consulting Hours \cdot Led exam sessions \cdot Graded
- Fall 2022, Intro Physics Lab: Helped students with Python/NumPy data analysis labs and homeworks

Research

ADOPT: Adaptively Optimizing Attribute Orders | Github | VLDB

 $\mathbf{Jan}\ \mathbf{2022} - \mathbf{Present}$

• Paper Accepted into VLDB 2023 · Created dynamic data visualizations for the ADOPT query engine using Java, D3.js, JavaFX, and GraphStream · Visualized the engine's reinforcement learning algorithm · Worked under Prof. Trummer

Projects

Cornell Meetup | Cloud Computing | Azure, CosmosDB, Python, WebDev | Github | BOOM Aug 2022 - Dec 2022

• 1 of 32 projects selected for BOOM 2023. My partner and I created a social media web app that allows users to create groups, chat with friends, and see where their friends are when on campus. Accounts details were obfuscated and salted.

DBMS | DB Practicum | Java, SQL, JUnit, Mockito, NIO | Github

 $\mathbf{Aug}\ \mathbf{2022} - \mathbf{Dec}\ \mathbf{2022}$

• My team and I created a Database Management System. The DBMS took SQL queries as input and created a logical and physical operator plan. The queries were optimized using indexes, statistics, and V-values to choose the best operators. Queries could be calculated in-memory or externally. Indexes were serialized and deserialized to/from disk.

Egos | OS Practicum | $C \mid Github$

Jan 2022 – May 2022

• My team and I heavily upgraded an operating system. We made a threading and semaphore package, multi level feedback queue to schedule processes, a file write-through and write-back cache using the Clock eviction algorithm, and also implemented the FAT file system.

Organizations

Engineering Entertainment Design Club | Lead Programmer / Secretary | Club

Aug 2022 – Present

• Created a robot that makes drinks · Wrote Arduino code · Administrative tasks · Filming/Editing for club Youtube

Cornell Tradition Fellowship | Fellow | Fellowship

Aug 2020 – Present

• Contains < 4% of all students · Keep good grades · Work and volunteer during the school year · Do 100+ hours of each
